

5.02 – Economic Systems World Fact Book Activity

Use the CIA's online database, The World Fact Book, <https://www.cia.gov/library/publications/the-world-factbook/index.html>, to study various features of four unique countries (North Korea, Singapore, United States, and Zambia) and be able to identify the economic system for each country. Fill in all data points about the four assigned countries. If data is unavailable, write "N/A" in the box.

Country Name		Government Expenditures	
Economy		Education Expenditure Rate
