

SCIENTIFIC REVOLUTION RESEARCH ACTIVITY

Before the 1400s, the people of Europe looked to the church, tradition and superstition for advice and to guide them in their day-to-day activities. However, a new wave of intellectual activity made its way across Europe. Built upon the knowledge of the Muslims, Indians and Chinese, Europeans began to use their minds to explore and explain the world. This event was the Scientific Revolution.

For this assignment, research the following scientists, gaining the following information to fill out the chart.

	Birth / Death Date	Country Born	Protestant/ Catholic	Accomplishment(s)	Difficulties Faced/ Persecution (Y/N)
Copernicus					
Kepler					
Galileo					
Francis Bacon					
Descartes					
Isaac Newton
