

Entrepreneurship 1 Syllabus

2022 - 2023

Instructor: Elizabeth H. Price, M. Ed
ehprice@wcpss.net

Course Curriculum Overview:

In this course students evaluate the concept of going into business for themselves and working for or operating a small business. Emphasis is on the exploration of feasible ideas of products/services, research procedures, business financing, marketing strategies, and access to resources for starting a small business. Students develop components of a business plan and evaluate startup requirements. English language arts and social studies are reinforced.

Supplies Needed:

We will use technology for the majority of our assignments. Students will need a writing instrument, folder with pockets, index cards.

Professional Dress - Students will be taught professional etiquette and proper professional dress and are expected to have a professional dress outfit for field trips and required school days. Additional information will come home regarding this requirement. Help is available to secure the proper attire.

Teacher Availability and Website - Students are encouraged to request assistance as needed. I am available during Hawks Nest and by appointment after school on Tuesdays, Wednesday (Atrium) and Thursdays. The class is managed through Canvas with student and parent access.

Parent Involvement and Support - VMCCA encourages active communication and participation with parents and the community. Parents are encouraged to share any opportunities through their work and skills to help in service learning for students, job readiness, guest speaking, or sponsoring events.

Summative assessments are designed to evaluate students' academic achievement at the end of a sequence of instruction. Only summative assessments will count toward a student's grade in order for the grade to reflect only the academic achievement. If a student performs poorly (lower than 70%) on a summative assessment, there will be an opportunity for the student to re-test and receive additional instruction during Hawks Nest.

Formative assessments will be given frequently and are designed to provide the student with direction for improvement and to provide the teacher with direction for instruction.

Homework - As a rule, most of the class assignments will be given a fair amount of time to complete. It is my goal that students make good, efficient use of their time. If students are being assigned homework, it is most likely because efficient, on-task time was not used. In most cases, late homework (without a valid excuse) is not accepted as adequate time was provided to complete the assignment. Adjustments can be made based on communication with students.

Missing Work - There will be a few times each grading period where students will have the opportunity to submit any missing work. However, it is at the discretion of the teacher based on how the student is managing their time.

Grading Scale for Summative Assessments:

- Major Assessments: 50%
- Minor Assessments: 35%
- Homework 15%

10 point grading scale:

A = 90 – 100	I = Incomplete
B = 80 – 89	WF = Withdrawal with F
C = 70 – 79	FF = Failure - absences
D = 60 – 69	
F = 59 – 0	

ME11 Entrepreneurship 1 Course Objectives:

1.00	Understand entrepreneurship, entrepreneurship discoveries, the entrepreneurial mindset, and business ethics in entrepreneurship.
1.01	Describe the nature of entrepreneurship (SP).
