

School Research Project Form: World for Sale

To Whom it May Concern,

My name is Michael Grether, a Teacher from Rolesville High School. This student is a part of my AP Human Geography class. We are studying economics and development around the world, with a focus on the impact of globalization. The students are participating in a field research project that analyzes what goods are available to them across a variety of stores in Wake Forest/Raleigh. The project asks them to collect data about:

- Where goods are made?
- Department of the Good

The purpose is to see the patterns of what goods are produced where in the world, and then to research the quality of life in those locations. This data is kept private and is solely used to bring to life concepts in the class. Data is deleted/destroyed upon completion of the project.

If you have questions or concerns about this activity, please feel free to reach out to me at MGrether@wcpss.net or to call me at 919-800-1753.

Respectfully,

Michael Grether
